BRUNSWICK BILLIARDS

WHERE FAMILY TIME AND QUALITY TIME MEET

In 1845, John Moses Brunswick set out to build the world's best billiards tables. Applying his formidable craftsmanship, a mind for innovation, boundless energy, and a passion for the game, he created a table and a company whose philosophy of quality and consistency would set the standard for billiard table excellence.

Even more impressive, he figured how to bring families together. And keep them that way.

That's because Brunswick Billiards tables — the choice of presidents and sports heroes, celebrities, and captains of industry for over 170 years — have proven just as popular with moms and dads, children and teens, friends and family. Bring a Brunswick into your home and you have a universally-loved game that all ages will enjoy, and a natural place to gather, laugh, share, and enjoy each other's company.

When you buy a Brunswick, you're getting more than an outstanding billiards table. You're getting a chance to make strong and lasting connections, now and for generations to come.

Connecting Generations through Superior Craftsmanship and Innovation Since 1845

BRUNSWICK POOL TABLES

Masterpieces of craftsmanship, design, and innovation, today's Brunswick tables continue the legacy of excellence begun almost two centuries ago.

BRUNSWICK ADVANTAGE

If you look inside a Brunswick table you'll see innovation after innovation. Every extra step we take in the building process ensures we achieve superior accuracy and consistency in our tables, so that you can achieve superior accuracy and consistency in your game.

Our goal is to provide our customers with a product that will last a lifetime. We are proud to stand behind every product that carries the Brunswick name, and guarantee our products for quality in materials and workmanship.

That's the Brunswick Advantage.

All Brunswick tables come standard with High Performance Nut Plate Construction and Certified Slate.

High Performance™ Nut Plate Construction

Our exclusive High Performance Nut Plate connects the cushioned rails to the slate. Unlike the more commonly used t-nut type hardware, this allows for the application of 70% more torque to each connection and ensures a solid, seamless transition between rail and slate for enhanced performance and playability.

Brunswick Certified Slate

Demonstrating our enduring commitment to superior performance, Brunswick meets or exceeds all Billiard Congress of America slate specifications. Diamond honed and stringently tested, Brunswick slate is certified for quality and comes with a lifetime warranty.

PREMIUM FEATURES

Enhanced table features for a difference you can actually feel, with exceptional quality and playability you're sure to appreciate.

I→ SUPERSPEED® CUSHION RUBBER

Brunswick SuperSpeed cushions have been the standard in the industry for over 70 years. They are made to Brunswick's exact specifications from a proprietary rubber formulation resulting in more controlled ball penetration, greater accuracy in rebounding, and an exceptionally consistent rail.

⌘ DOVETAIL CROSS SUPPORTS

Thick solid wood cross supports utilize dovetail joinery to connect the table frame at each slate joint. With this construction the cross supports become an integral part of the table frame and achieve superior performance by supporting the slate joints as if the slate was one piece.

■ SOLID WOOD AND SOLID HARDWOOD VENEERS

Brunswick rails are made of solid hardwood. The rails are machined to exacting standards and provide a solid foundation with premium materials to last for generations.

★ MOTHER-OF-PEARL RAIL SIGHTS

Genuine cultivated pearl material offers a beautiful contrast to the rail wood finish.
